There were never better prospects for good crops than now. The grain, alfalfa and the beets are growing very rapidly, and the fruit trees are literally a mass of bloom. However, there have been some brisk little breezes blowing of late, which have caused the farmers some little annoyance, in the way of blowing some of the beets out of the ground and covering others up. But most of the damaged crops have been

Los Angeles, May 26.-Talk about the fifty-seven varieties:

There were only about 357 different explanations of Friday night's flasco and every man was sure that he alone had the real dope on the situation.

But Saturday's developments were startling to say the least and two things fifty-seven varieties!

very clear light. In the first place, Charles McHugh, an employe of the Pacific Athletic cluo, lett by McCarey to guard the scales, makes the allegation that Tommy Jacobs is the man who tampered with the weighling machine.

In the second place, A. B. Greenewald, partner of Tom McCarey and inatical backer of the Parine Athetic cub, makes a signed statement that Herrera confessed to him shortly before it o'clock last night that he weighed over 140 pounds and for that reason would not go on the scales either in public or in private.

Now if Herrera weighed over 140

Now if Heffera Weighed over re-pounds with his dinner, how much did he weigh at 8 o'clock? This is a con-undrum. On Friday right about a dozen times Jacobs made this statement: 'I have had a hard time getting this fellow down to weight. I have had to starve him for two days and he hasn't had a drink of water since Thursday morn-ing.'

a drink of water and the fing."

Now either Herrera or Tommy Jacobs is departing from the truth—and this is putting it very mildly.

The club must be censured for one thing. The management allowed Herrers to go along day after day without weighing in the presence of some reliable party. People who bot their money on the results and support the game by buying high priced seats, have a right to know what each man weights.

Nelson was willing to give his weight to know what each man weights.

Nelson was willing to give his weight out. I saw him weigh day after day hie made no secret about it, as he was always within a few hours of the allotted poundage. But Herrera refused utterly to allow any one to see him on the scales. He would not weigh for the club representatives. He would not weigh for the newspaper representatives. The club did not press him and where he should have been forced to do the right thing, the Pacific Athletic club trusted him and allowed him to keep them in the dark as to his real weight. If Herrera weighed 13s pounds at 6 o'clock of Friday there was a good reason for it. His best fighting weight is near 13a.

Friday there was a good reason for it. His best fighting weight is near 139 pounds. He could not have made his best fight at 140, as the excess baggage would have hindered rather than helped life.

TERRY FORCED MILLING. Terry rushed to a clinch at the opening of the ninth and worked his right to the riss and head. Britt jabbed his left is Terry's injured eye and rushed but Mc Govern stopped him with hard right and left to the head. Terry had the better of some hard mix-ups, and jarred Brit with a right to the head at the close of the round.

the round.

The linal round found Terry forcing the fight. After a clinch both seut right and left to the head and exchanged right far back on the jaw.

There were several clinches during which Terry had the upper hand in shorarm work. Terry missed a right swing but landed a bard left hook to the face. They were fighting at close quarters when the bell ended the fight.

At long range and Terry hocked his left to the head again.

FRENCHMEN WON. New York, May 25.—According to a private cable dispatch received hast utgniform Lecuver, precident of the Cercle carabiniers of Parls, it appears that the match shot last week by 15 members of that club with rifles and revolvers against a like number of members of the Mahhattan Rifle and Revolver club of this city was won by the Frenchmen by a small margin. The conditions were 46 shots a 250 yards on the French target for the rifle, and the same number at 50 yards of the standard American parget for the revolver, with 466 points added to each incidividual score to equalize the difference in the size of targets.
